At Citrus Gardens, we believe in compassionate care for our special seniors with memory care issues. It's not just an idea - but a way of life at our Community!

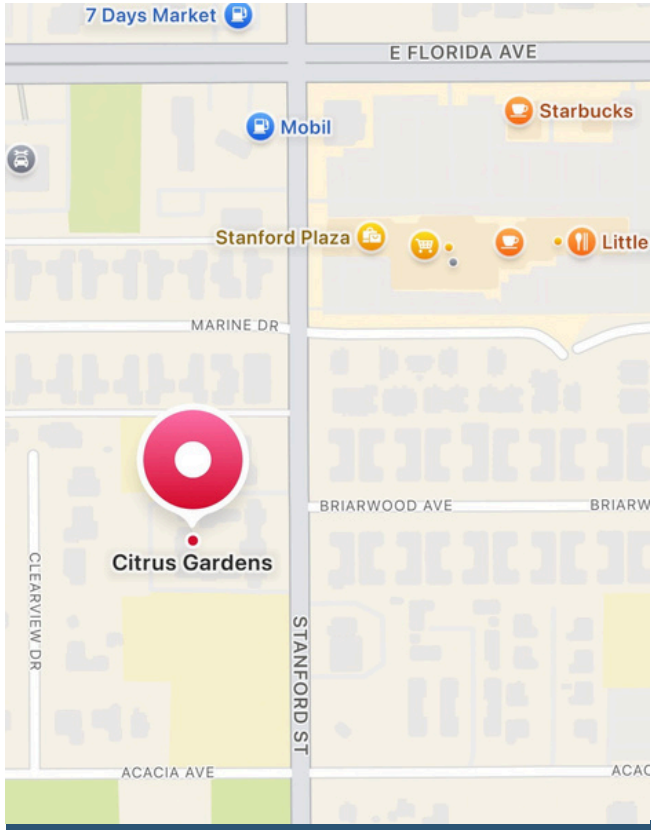

Our Passion

is to create an environment where your well-being is at the center of everything we do. Citrus Gardens offers a wide range of services designed to meet you and your loved one's unique needs. No senior is alike so we provide lifestyle options that specialize with Dementia and Memory Care. We call this resident-centered-care. Here, we have wellness programs that nourish the body with fun activities that create community.

This approach extends to many services that exist to simplify your life, eliminating some of your burdens while retaining your favorite pastimes and cherished routines. How do we do this? Here are a few ways we care for and celebrate our residents...

Wellness & Community

- **Licensed staff who monitor** the health and wellness of each resident.
- **24-hour care** where our experienced, capable staff lend a hand in daily living activities such as medication management, dressing, grooming, bathing, and toileting.
- **Attentiveness to building relationships** and recognizing the whole person has social, mental, physical, and emotional needs.
- **A dining experience** A dining experience enjoying the familiar taste of home-cooked meals; because we understand people have different and special dietary needs in which we can accommodate.
- **Opportunities for social interaction** that promote a sense of joy, satisfaction and belonging. Movie nights with popcorn in our lovely courtyard, music, creative arts and fun activities are just a few examples.
- **Outdoor space that promotes community,** provide individual gardening opportunities and foster physical wellness.

No Matter what world you live in, just remember you are perfect in my world!
